

## GIVE UP HUNT FOR KINGSTONIAN'S CREW

Believe Men Were Picked Up by Eastbound Ship; Says There Is but One Submarine.

Newport, R. I., Oct. 11.—The search for the crew of the Kingstonian, one of the vessels torpedoed by a German submarine off Nantucket last Sunday, has been abandoned and the 12 torpedo boat destroyers that have been engaged in this work were ordered to return to port.

There is strong belief among shipping men that some merchantman bound east picked up the missing crew and proceeded on her voyage.

A report said to have come by wireless told of the finding by one of the destroyers of an overturned lifeboat belonging to the Kingstonian. Naval officers here, however, later denied the story.

The announcement that Capt. Math L. Grotness of the Norwegian tank steamer Christian Knudsen, reported to the owners of his ship in New York that he saw three submarines, aroused much interest among officers of the destroyer flotilla here. The captain was quoted as saying that while standing on the deck of the U-boat which attacked his vessel, he saw two other submarines in the distance.

Rear Admiral Austin M. Knight, commandant of the Narragansett bay naval station, said that notwithstanding the report of Capt. Grotness he still held to the belief that only one submarine, the U-53, was engaged in the operations off Nantucket.

Rear Admiral Knight suggested that Capt. Grotness mistook destroyers speeding at a distance for submarines. With their hulls partly below the horizon, the admiral said, the destroyers might present an appearance similar to the under-sea boats.

## BLAZE IN UNIVERSITY

CAUSES \$250,000 DAMAGE TO WISCONSIN STATE SCHOOL BUILDING.

Madison, Wis., Oct. 11.—Fifteen hundred students, many of whom had narrow escape from death or serious injury, fled from class rooms in the main hall of the University of Wisconsin when fire swept throughout the structure and destroyed it.

The loss is estimated at \$250,000. Thirty minutes after the fire was discovered the interior of the building was a seething furnace. The students came down fire escapes in fire drill formation and many of them joined the fire department in fighting the fire.

Five Hurt in Collision.  
Youngstown, O., Oct. 11.—Collision between an interurban electric car and a B. & O. freight train at East Youngstown resulted in the injury of nine passengers on the car. About two score other passengers were thrown into momentary panic and fought to escape by windows and doors.

Lynch Negro.  
Little Rock, Ark., Oct. 11.—Frank Dodd, a negro prisoner held on a charge of having annoyed a young white woman, was taken from the county jail at Dewitt, Ark., by a mob of 300 men and hanged from a tree in the outskirts of the town.

Tiffin Official Dies.  
Tiffin, O., Oct. 11.—Frank J. Haffey, 64, director of public safety, is dead of heart trouble.

DUSTLESS ASH CAN PATENTED  
Consists of Revolving Frame and Eight Receivers.

A patented ash receiver now being manufactured is a device used in connection with the heating plant to receive the ashes which are drawn to the opening and fall thru this opening into a can beneath. Eight cans are mounted in a circle on a revolving frame in a pit below the firebox of the heating plant.

When a can is filled a frame within is turned by a lever, bringing an empty can into place and so on until all of the cans are filled. The cans are constructed of corrugated steel and the plates of iron. The invention is regarded as filling a long felt want for an ash receiver that will do away with the annoyance of creating dirt in the cellar near a heating plant when ashes are removed from the firebox.

TIME SAVING ENVELOPE

Can Be Opened With Single Quick Stroke—Now on Market

To business men and others who have to open a great number of letters and who find the old fashioned flap envelope a time consuming nuisance, the idea contained in a recent invention would be an effective time saver.

To enable the recipient of the letter to open it with a single stroke, a set of parallel slits with overlapping ends is provided in the flaps of the envelope. A small tongue is cut in the paper at the point where the lines meet. When this tongue is pulled the paper tears diagonally from one slit to another in rapid succession.

Thus, with a swift movement the envelope is neatly and squarely cut open without injuring the contents.

How Catarrh is Contracted  
Mothers are sometimes so thoughtless as to neglect the colds which their children contract. The inflammation of the mucous membrane, at first acute, becomes chronic and the child has chronic catarrh, a disease that is seldom cured and that may prove a life's burden. Many persons who have this loathsome disease will remember having had frequent colds at the time it was contracted. A little Cough Remedy judiciously used, and all this trouble might have been avoided. Obtainable everywhere—adv.

ORVILLE WRIGHT

Orville Wright, the American aeroplane inventor, is said to have presented to the British government all his patents.

## GET CAR ROBBERS AND \$12,000 IN GOODS

Police Raids on Houses Reveal Wholesale Thefts From Railroads.

Cleveland, Oct. 11.—Staging the largest single raid made in many months, and one which may involve organized bands of criminals in other Ohio cities, police recovered property valued at about \$12,000 and arrested five men and one woman. They took to Central station three truck loads of clothing and a wide variety of articles. The loot hauled to police headquarters is said to have been taken for the most part from railroad freight and express trains.

One of the five men arrested is a policeman's son. All the prisoners are being held on open charges. The conversion of detective quarters at Central station into a miniature department store followed the raiding of two houses, one on E. 9th-st. and the other on Central-av.

In a room occupied by one of the men held at police headquarters police found a suitcase containing a burglar's complete outfit and a revolver. One of the men taken to Central police station was wearing a balmacan coat identified by the tag as one of a consignment of coats shipped over the Nickel Plate railroad Sunday by the Joseph & Feiss Co., manufacturing clothes of this city.

The property recovered included more than 150 new suits, 50 overcoats, automobile spark plugs, electric light bulbs, big quantities of candy, playing cards and stationery, much of it tallying with descriptions of articles stolen from Nickel Plate railroad cars.

According to police, one of the men under arrest confessed that he and his confederates boarded Nickel Plate trains in motion west of the river. While the trains moved slowly out of the city they broke into the cars and then threw the articles onto the tracks near Rocky River, where other confederates picked them up and placed them in trucks for removal to places of concealment in Cleveland.

WOMAN SHOT BY 'RIDERS'  
MASKED MEN FIRE ON HOUSE, WOUNDING WIFE OF OKLAHOMA PLANTER.

Oklahoma City, Okla., Oct. 11.—Mrs. Cecil Mattoon, wife of a cotton grower near here, is in a serious condition as the result of a shot which struck her as she stood near a window trying to identify members of a band of masked night riders that had attacked her home. Mattoon returned the fire of the band as the horsemen rode around her house.

Four men, said to have been among those who recently warned Mattoon that his employment of negroes in the harvest of cotton must cease, have been arrested by the sheriff.

## HUNG WITH BOOKSTRAP

NEW YORK SCHOOLGIRL ASSAULTED AND MURDERED IN TENEMENT.

New York, Oct. 11.—Strangled with her own bookstrap after having been assaulted, Tillie Brown, an 11-year-old schoolgirl, was found dead in the cellar of a tenement on the lower East Side.

Terror reigns throughout the East Side as a result of the murder, which it is feared may herald another series of "Jack the Ripper" outrages, which terrorized the whole city a year ago. Coroner Feinberg issued a warning to all mothers to keep close watch over their little ones.

Demands Troops Leave.  
San Antonio, Tex., Oct. 11.—Col. Barragan, chief of staff to First Chief Carranza, said that an agreement to withdraw American troops from Mexico must be signed and a definite date for withdrawal must be set before any other questions affecting Mexico can be successfully taken up by the Mexican-American commission at Atlantic City.

Gentle—But Sure  
Biliousness, sick headache, sour stomach, gas, bloating, constipation, dyspepsia—all these distressing consequences of retaining a mass of undigested and fermenting food in the stomach are avoided if the bowels are kept open and regular. Foley Cathartic Tablets are first aid to good health. Do not gripe. P. A. Morris—adv.

## TO STANDARDIZE BOILER INSPECTION

Industrial Commission Will Call Meeting of Inspectors From Every State.

Special Columbus Correspondent.

Columbus, Oct. 11.—A uniform standard for boiler inspection in every state in the union is aimed at by Ohio. The first step toward the realization of such a plan was taken Tuesday when the Ohio industrial commission authorized State Boiler Inspector J. C. Callery to call a meeting of boiler inspectors of every state, to be held at Washington, D. C., Dec. 4. The plan is to frame a code at this meeting which will meet the needs and desires of the entire country. The committee in charge of arrangements for the proposed meeting will be composed of Mr. Callery, F. P. Brownstead, chief of Ohio stationary engineers, and H. A. Baumbach, vice chairman of the Ohio board of boiler rules.

People Control Road Building.  
A ruling that will doubtless have extensive application throughout Ohio, as Buckeye roads gradually become paved in the various counties, has been handed down by Judge Sater in federal district court in Columbus in the case of the county commissioners of Belmont county vs. the Wheeling Traction Co. The ruling is, in effect, that the people at all times have the right to dictate the kind of materials of which roads shall be built, including that part of the roads occupied by the tracks of the railroads. The decision places county commissioners on the same plane with city officials, with regard to the improvement of roads and streets occupied by tracks.

Is Liquor Taxable?  
If liquor is brought from a wet county and stored in a warehouse pending delivery to persons who have purchased it, is it subject to the \$1,000 liquor tax? This is a question which the supreme court is asked to pass upon. It comes from Henry county, where the lower courts held that the county treasurer could collect the tax should the liquor be kept but temporarily in the warehouse. The contention is made that as the sellers of the liquor pay the tax before it is shipped to the warehouse, nothing can be collected on it after it reaches that place.

Service Has Good Effect.  
That border soldiers are having a good effect upon national guardsmen is evidenced by the appearance of the 1st regiment of Connecticut, which passed through Columbus Tuesday en route home from a four-months' period of duty at Nogales, Ariz. The soldiers looked toughened and seasoned and fit for any kind of duty. They seemed to be in the finest physical condition. The command did not lose a single man on the trip. Reports from the border are that the 9,000 Ohio soldiers there are receiving as much benefit from their experience as the Connecticut guardsmen received.

Property Owners Not Liable.  
Dispelling an impression that has prevailed, the supreme court has ruled that property owners are not liable for damages for accidents to pedestrians on icy pavements in front of their property. This is the holding of the court in a Cincinnati case. If any liability exists, it is against the municipality and not against the property holder. However, the city may require property owners to keep pavements clear of snow and ice to make them safe.

Again in Pen.  
Alfred Strader, the Franklin county man who was sent to the penitentiary for dynamiting street cars during the Columbus street car strike some five years ago, and who was pardoned by the governor a little more than a year ago, is again back in the penitentiary, having been sent up for horse stealing. He entered a plea of guilty. He was also charged with stealing an automobile, but it is understood that this charge will not be pressed.

For Flood Protection.  
By a vote of two to one Tuesday the Franklin county conservancy board adopted the Alvord-Burdick plan as the official flood protection system for this district. Commissioner George W. Lattimer cast the negative vote. The plan will involve the expenditure of \$11,000,000 and necessitates the construction of huge retention basins. Thousands of West Side residents and other citizens oppose the majority plan.

Asks for Pardon.  
Harris J. Morgan, now serving an 18-year sentence for burglary, who was responsible for the recent penitentiary probe, has asked Gov. Willis for a pardon. In this connection it is interesting to note that friends of Warden Thomas charged that Morgan had received assurances that he would be freed if he testified against the warden.

One Killed, One Injured.  
Pittsburgh, Pa., Oct. 11.—John Margolis, 30, was killed and David Hathaway, 45, probably fatally injured when a ledge of earth collapsed where excavation work for a new garage was in progress. Several others had narrow escapes.

DEAFNESS CANNOT BE CURED  
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are cured by Catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

## BLOCKADED

Every Household in Canfield Should Know How to Resist It.

If your back aches because the kidneys are blocked.

You should help the kidneys with their work.

Doan's Kidney Pills are especially for weak kidneys.

Recommended by thousands—here's testimony from this vicinity.

Mrs. John Dietsche, 217 N. Chestnut St., Niles, Ohio, says: "My back hurt me terribly and the weakness and pain across my loins was so bad, I could hardly walk. I couldn't get much rest, felt tired and nervous and had no strength or energy. Dizzy spells came on me and inflammation of the bladder set in. I didn't improve and finally had to take to my bed. I finally dismissed the doctor and began using Doan's Kidney Pills. Relief soon came and I continued to get better until I was cured. I have been in perfect health ever since."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Dietsche had. Foster-Milburn Co., Props., Buffalo, N. Y.—Adv.

## NEURALGIA PAINS YIELD QUICKLY

Hundreds Find Sloan's Liniment Soothes Their Aches.

The shooting tearing pains of neuralgia and sciatica are quickly relieved by the soothing, external application of Sloan's Liniment.

Quiets the nerves, relieves the numbness, tingling, and by its tonic effect on the nerve and muscular tissue, gives immediate relief.

Sloan's Liniment is cleaner and easier to use than musky plasters and ointments and does not clog the pores. Just put it on—it penetrates. Kills pain. You will find relief in it from rheumatism, neuralgia, sciatica, stiff neck, toothache, etc.

For strains, sprains, bruises, black-and-blue spots, Sloan's Liniment quickly reduces the pain.

It's really a friend of the whole family. Your druggist sells it in 25c, 50c and \$1.00 bottles.

## Maxwell Service SERVES

Maxwell has put a real meaning into the word "Service."

Simply by requiring every Maxwell dealer to carry a full supply of Maxwell parts--so that he can replace any damaged or worn part at once, without waiting for parts to be shipped from the factory.

If you are a Maxwell owner your car will always be in running order because our dealer--any Maxwell dealer--can give you real and immediate service. If he couldn't, he wouldn't be a Maxwell dealer.

Not more than one or two automobile builders in the country can give you service that compares with Maxwell Service.

This is a vital point. Investigate it fully before buying your car.

Roadster \$580; Touring Car \$595; Cabriolet \$665; Town Car \$915; Sedan \$985. Fully equipped, including electric starter and lights. All prices f.o.b. Detroit.
